2018 Fall Workshop

Implants in the Esthetic Zone: The Art and Science

December 3–4, 2018

**Quintessence CE Center
Batavia, Illinois**

ABSTRACT

In the maxillary anterior area, the esthetic outcome is a critical determinant of the overall success of implant therapy, yet it remains a challenge. Recent digital technology offers numerous new and efficient options for planning and conducting implant and restorative treatments. Key factors for implant success include correct 3D position and long-lasting soft tissue integration, and biologic factors like the individual biotype, peri-implant tissue quality, and bone morphology also impact treatment decisions. The analysis of the anatomical situation helps determine whether immediate or delayed implant placement should be used, and both techniques will be discussed in the workshop. The hands-on training will include a demonstration of microsurgical techniques, guided implant placement in a fresh extraction socket using a prefabricated stent, fabrication of the suprastructure for immediate restoration, implant placement in a deficient site, and bone augmentation using bone lamina techniques.

COURSE OBJECTIVES

- See the benefits of digital treatment planning as an additional prognosis factor for treatment safety and long-term patient satisfaction
- Learn to recognize patient-related risk factors in preserving and preparing implant sites in the esthetic zone, including in fresh extraction sockets
- Gain an understanding of the differences between the biologic parameters around natural teeth versus implants
- Study restorative concepts for achieving an esthetically pleasing result

COST

The fee to attend is \$1,250 and includes the following:

- Admission to the course and workshop on both days
- Lunch, break refreshments, and all-day coffee and tea on both days
- Welcome Reception
- Transportation via private bus between Hotel Baker and Quintessence CE Center at prearranged times
- At least a 15% discount on all available book and multimedia titles

HOTEL INFORMATION

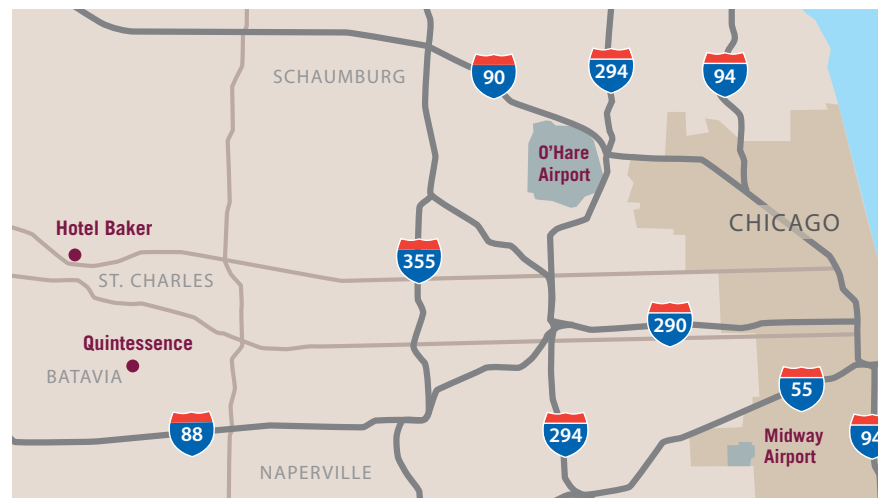

Quintessence Publishing has entered into an agreement with **Hotel Baker** to accommodate our guests. Hotel Baker offers the epitome of all things luxurious: elegant guest rooms and suites, state-of-the-art amenities, exceptional dining and lounge venues, and a scenic riverside setting second to none. The room rate during the workshop is set at \$139 per night (plus tax) and includes a deluxe continental breakfast each morning. Quintessence Publishing has scheduled a bus to transport attendees between the hotel and the course/workshop location (about 15 minutes) at specific times. The workshop will take place in the **Quintessence CE Center** (421 N Raddant Rd, Batavia, IL 60510).

Hotel Baker

100 W Main Street, St Charles, IL 60174

SCHEDULE

MONDAY, DECEMBER 3

09:00 AM–09:10 AM

- Introduction and opening

09:10 AM–10:00 AM

- Lecture:** Implants in the esthetic zone—Basics, biology, and beyond

10:00 AM–11:00 AM

- Lecture:** Immediate implant placement in the esthetic zone

11:00 AM–11:30 AM

- Coffee break

11:30 AM–1:00 PM

- Lecture:** Bone and soft tissue augmentation in the esthetic zone

1:00 PM–2:00 PM

- Lunch break

2:00 PM–3:00 PM

- Lecture:** Bone lamina technique

3:00 PM–5:00 PM

- Hands-on training and video demonstration:** Implant placement in deficient site and bone lamina technique

5:00 PM

- Welcome Reception

TUESDAY, DECEMBER 4

09:00 AM–09:10 AM

- Introduction and opening

09:10 AM–10:15 AM

- Lecture:** Digital diagnostic and patient communication tools

10:15 AM–10:30 AM

- Coffee break

10:30 AM–12:00 PM

- Lecture:** Choice of materials and long-term clinical outcomes for an evidence-based treatment concept and current concepts for an ideal abutment design in the esthetic zone

12:00 PM–1:00 PM

- Lecture:** Monolithic implant reconstructions—The keystone to advances in CAD/CAM technologies

1:00 PM–2:00 PM

- Lunch break

2:00 PM–4:45 PM

- Hands-on training:** Workshop guided surgery (posterior zone), intraoperative intraoral optical impression, and creation of a monolithic implant crown on a Variobase abutment

4:45 PM–5:00 PM

- Farewell

CONTINUING DENTAL EDUCATION CREDITS

Attendees for the workshop may receive up to 13.25 hours of CE credit.

ABOUT THE SPEAKER

Arndt Happe, DDS, Dr med dent, is Assistant Professor and research fellow at the University of Cologne in Germany, where he lectures on implant treatment, esthetics, and soft tissue management. He received his dental degree at the University of Münster, Germany, before completing his advanced education in oral surgery. He holds advanced certificates in implantology and periodontology from the German Societies for Implantology and Periodontology, respectively. Dr Happe previously served as the German editor of *The International Journal for Periodontics & Restorative Dentistry*. He is coauthor of the textbook *Success with Implants in the Esthetic Zone* (Quintessence), which will be available in fall 2019. Since 1999, he has maintained a renowned private practice limited to implantology, periodontology, restorative dentistry, and esthetic dentistry in Münster.

Arndt Happe, DDS, Dr med dent

ABOUT THE SPEAKER

Vincent Fehmer, MDT, is Master Dental Technician at the Clinic for Fixed Prosthodontics and Biomaterials in the Center for Dental and Medicine at the University of Geneva, Switzerland. He received his dental technical education and degree in Stuttgart, Germany, in 2002 and received his MDT in 2009. Mr Fehmer is a fellow of the International Team for Implantology, an active member of the European Academy of Esthetic Dentistry (EAED), and a member of the Oral Design Group, the European Association of Dental Technology (EADT), and the German Society of Esthetic Dentistry (DGÄZ). He was the chief dental technician at the Clinic for Fixed and Removable Prosthodontics in Zurich, Switzerland, from 2009 to 2014. He maintains his own laboratory in Lausanne, Switzerland.
