

WORLD JOURNAL OF ORTHODONTICS

GUIDELINES FOR AUTHORS

World Journal of Orthodontics is a quarterly journal that publishes original, scientifically validated articles primarily of interest to the clinician. Authors are invited to submit papers on the latest and best clinical procedures, both diagnostic and therapeutic. This includes case reports and case studies that have particular clinical interest and application. Color illustrations are encouraged wherever possible. All submissions are rigorously peer-reviewed for scientific merit.

MANUSCRIPT SUBMISSION

Submit manuscripts via WJO's online submission service:

www.manuscriptmanager.com/wjo

Manuscripts should be uploaded as PC Word (doc) files with tables and figures preferably embedded at the end of the document. No paper version is required.

Adherence to guidelines. Manuscripts that are not prepared in accordance with these guidelines are subject to rejection before review.

MANDATORY SUBMISSION FORM

The Mandatory Submission Form (accessible from WJO's home page at www.quintpub.com), must be signed by all authors and faxed to the WJO Manuscript Editor (630-736-3634).

PERMISSIONS AND WAIVERS

- Permission of author and publisher must be obtained for the direct use of material (text, photos, drawings) under copyright that does not belong to the author.
- Waivers must be obtained for photographs showing persons. When such waivers are not supplied, faces will be masked to prevent identification.
- Permissions and waivers should be faxed to the WJO Manuscript Editor (630-736-3634).

MANUSCRIPT PREPARATION

The Journal will follow as much as possible the recommendations of the International Committee of Medical Journal Editors (Vancouver Group) in regard to preparation of manuscripts and authorship (Uniform requirements for manuscripts submitted to biomedical journals. *Ann Intern Med* 1997;126: 36-47).

- **Title page.** The first page must include the title of the article; the complete names, titles, addresses, and professional affiliations of all authors; and phone, fax, and e-mail address for the corresponding author.
- **Abstract.** Include a maximum 250-word structured abstract (with headings Aims, Methods, Results, Conclusion). Abstracts of case reports need not be structured as such.
- **Introduction.** Summarize the rationale and purpose of the study, giving only pertinent references. Clearly state the working hypothesis.

- **Material and Methods.** Present in sufficient detail to allow confirmation of the observations. Published methods should be referenced and discussed briefly.
- **Results.** A concise analysis must be given and illustrated as needed.
- **Discussion.** Emphasize the new and important aspects of the study and the conclusions that follow from them. Do not repeat in detail data or other material given in the Introduction or Results section. Relate observations to other relevant studies and point out the implications of the findings and their limitations.
- **Abbreviations.** The full term for which an abbreviation stands should precede its first use in the text unless it is a standard unit of measurement.
- **Trade names.** Generic terms are to be used whenever possible, but trade names and manufacturer should be included parenthetically at first mention.
- **Acknowledgments.** Acknowledge persons who have made substantive contributions to the presentation. Specify grant or other financial support, citing the name of the supporting organization and grant number.
- **Figure legends.** There should be an individual legend for each illustration or grouping. Figure legends should appear as a list at the end of the manuscript.
- **Tables.** Tables that are absolutely necessary should be logically organized and numbered consecutively.
- **References. A maximum of 20 citations is preferred.** The reference list should appear at the end of the article in numeric sequence. Do not include unpublished data or personal communications in the reference list. Provide complete information for each reference, including names of all authors (up to six). If the reference is part of a book, also include the title of the chapter and names of the book's editor(s).

Journal reference style:

1. Bishara SE, Jakobsen JR. Individual variation in tooth-size/arch-length changes from the primary to permanent dentitions. *World J Orthod* 2006;7:145-153.

Book reference style:

2. Graber TM, Vanarsdall RL, Vig KWL. *Orthodontics. Current Principles and Techniques*, ed 4. St Louis: Mosby, 2000:44-48.

REVIEW/EDITING OF MANUSCRIPTS

Reviewing of manuscripts will normally be the editor's prerogative, with the assistance of editorial board members and selected consultants with expertise in the field being discussed; ie, statistics, biomechanics, materia technica. The editor reserves the right of final decision. The publisher will edit accepted manuscripts to ensure conciseness, clarity, and stylistic consistency, subject to the author's final approval.

ARTICLE ACCEPTANCE

Article acceptance is pending receipt of images judged to be of sufficient quality for publication (see the guidelines in the box below). Once a manuscript is accepted, authors will be asked to submit high-quality nondigital images or high-resolution digital image files (on disk) to:

WJO Manuscript Editor
Quintessence Publishing Co, Inc
4350 Chandler Drive
Hanover Park, IL 60133

NONDIGITAL IMAGE FORMAT

When submitting nondigital images, consider the following:

- **Clinical photographs/radiographs.** Submit original 35-mm slides, high-quality glossy prints, or original film. If arrows, letters, or numbers need to be added to the images, submit an additional print of each image with the appropriate labels drawn; these will be reproduced by the publisher.
- **Line drawings.** Figures, charts, and graphs should be professionally drawn.
- The figure number, first author's last name, and proper orientation should be indicated on each image.
- For protection against damage or loss, authors should retain duplicate slides and illustrations.
- All original illustrations are returned after publication.

DIGITAL IMAGE FORMAT

When submitting digital images, consider the following:

- Resolution must be at least 300 dpi when the image is 3 inches wide.
- Images saved in tiff or eps format are preferred; jpg files are acceptable. Please do not embed high resolution files in Microsoft Word or PowerPoint.

AUTHOR/READER CORRESPONDENCE

- Authors are to be accessible, via e-mail, to readers with questions and comments.
- WJO readers will be encouraged to correspond directly with authors, via e-mail.

REPRINTS

Reprints can be ordered from the publisher. Authors receive a 40% discount on quantities up to 200.
