Introducing Our New Section Editors

**Helena Francisco** received a PhD from the University of Lisbon School of Dental Medicine (Portugal) and a Postgraduate Certification in Periodontology and Implant Dentistry from the New York University College of Dentistry (USA). In addition to practicing dentistry, Prof Francisco is an assistant professor and coordinator of the Oral Surgery and Implant Dentistry Postgraduate Program at the University of Lisbon School of Dental Medicine. She is an International Team for Implantology fellow, past chair of the European Association for Osseointegration Junior Committee, and current chair of the Diploma Program Subcommittee. Dr Francisco also serves as president of the Dennis Tarnow Alumni Association and has authored several communications, posters, and other national and international publications.

**Iva Milinkovic** is an assistant professor of the Department of Periodontology, Belgrade School of Dental Medicine (Serbia). She graduated from the University of Belgrade in 2006 and received her PhD from the same institution in 2011. Dr Milinkovic was awarded an International Team for Implantology (ITI) Scholarship in 2012 and spent 1 year at the Eastman Dental Hospital in Rome (Italy) under the mentorship of Dr Luca Cordaro. She completed her residency program in periodontology at the Belgrade School of Dental Medicine in 2014. She is a committee member of the Junior Committee and Congress Committee of the European Association for Osseointegration (EAO), and, in addition to memberships in the ITI and EAO, is a member of the European Federation of Periodontology (EFP). She has published several times in peer-reviewed journals; participated in all the main European annual conferences in the fields of implantology, periodontology, and osseointegration; and is an author of the textbook for undergraduate students of the Belgrade School of Dental Medicine. Her work is dedicated mostly to periodontology and oral implantology, with a special focus on surgical periodontal and peri-implant treatment.
